MAKING EVERYDAY A VACATION

Summit Windmill Golf Club has focused our energy on creating a community where nature is a heart. Thousands of large trees and flowers were planted and nourished in the endless landscape where hills and lakes combine each other into one magnificent scenery... a place where time seems to be slowing down an ambience of peace and prosperity, and a life of longevity. It is a place where houses are surrounded by water, embraced by hills, and blanketed by trees and flowers. It is a place where guards never sleep. It is no wonder that only the successful few have the opportunity to experience this utopia.
